

RANUDA RANHIRU PERERA

Kelaniya, Sri Lanka | +94 78 690 3375 | ranudaperera@gmail.com | linkedin.com/in/ranuda-perera | github.com/rplk3

SUMMARY

IT undergraduate at SLIIT with a focus on cloud technologies and full-stack development. Proven ability to deliver real-world projects using the MERN stack, Java, and modern web frameworks. Passionate about building scalable, practical solutions and continuously expanding expertise in cloud infrastructure and software engineering.

EDUCATION

BSc (Hons) in Information Technology	2024 – Present
Sri Lanka Institute of Information Technology (SLIIT)	Malabe, Sri Lanka
G.C.E Advanced Levels	2009 – 2023
Thurstan College	Colombo, Sri Lanka

PROJECTS

Nexus Talent HR | Global Recruitment & Workforce Platform

React 18, TypeScript, Node.js, Express, PostgreSQL, Supabase, Tailwind CSS

- Built a full-stack recruitment platform covering multi-industry job postings, candidate applications and B2B bulk workforce hiring, with multi-currency budgets (AED, USD, EUR, GBP, SAR).
- Secured sensitive passport and CV uploads using Supabase Storage and Multer, issuing 7-day temporary signed URLs.
- Created a TypeScript admin dashboard to manage listings, review applicants and track contract status; deployed on Vercel (frontend) and Railway (API).

StayFlow | Full-Stack Hotel Management & Analytics System

React 19, Node.js, Express, MongoDB, Google Gemini, Tailwind CSS, TanStack Query, Recharts

- Developed a hospitality system integrating room and event bookings, driver transport dispatch and automated billing with PDF invoice exports.
- Built an analytics suite with moving-average forecasting, automated revenue-leak detection and interactive KPI dashboards.
- Integrated a Google Gemini voice-enabled support agent with database function calling; enforced JWT-based RBAC for Guest, Driver and Admin portals.

Fixr | Mobile Home Services Marketplace (iOS & Android)

React Native, Expo SDK 54, Node.js, Express, MongoDB, Cloudinary, Railway

- Built a cross-platform app that centralises home repair and maintenance bookings, with token-based auth and Customer / Provider / Admin roles.
- Implemented a provider vetting workflow and image upload pipeline (expo-image-picker, Multer, Cloudinary) for listings and avatars.
- Deployed the Express REST API to Railway with MongoDB Atlas

Tourism & Travel Management System | Senior Travel Consultant Module

Java, Spring Boot, React, Microsoft SQL Server, Spring Data JPA, Bootstrap, Recharts

- Developed the consultant module of a multi-role tourism application: tour packages, discounts, guide rosters and availability.
- Wrote SQL aggregate queries (JdbcTemplate) to track real-time booking thresholds and prevent overbooking; built a React KPI dashboard with CSV reporting.
- Implemented a responsive consultant dashboard in React with KPI metrics, Recharts data visualizations, SweetAlert2 notifications, and dynamic CSV reporting.

ReserveEats | Restaurant Table Reservation Platform

Java 22, Java Servlets, JSP, Apache Tomcat, Maven

- Developed an MVC-based Java web app for restaurant discovery, categorized table reservations (VIP, Outdoor, Family) and feedback collection.
- Implemented custom data structures from scratch: a generic circular queue (`MyQueue<T>`) for FIFO waiting lists and a MergeSort ($O(N \log N)$) to order reservations by timestamp.
- Secured admin dashboards with an AuthFilter and HttpSession management, and stored data through a custom file persistence layer.

CryptoPredict | Cryptocurrency Price Forecasting

Python, Scikit-learn, TensorFlow, XGBoost

- Developed a machine learning system to forecast Bitcoin and Ethereum price movements using historical market data and technical indicators.
- Implemented an LSTM time-series forecasting model and compared its performance with five other ML models using R^2 , RMSE, MAE and MAPE.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, TypeScript, Python, SQL
- **Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, TanStack Query, Recharts
- **Backend:** Node.js, Express.js, Spring Boot, Spring Data JPA, Java Servlets, JSP, RESTful APIs, JWT, RBAC
- **Mobile:** React Native, Expo
- **Databases:** MongoDB, MySQL, PostgreSQL, Microsoft SQL Server, Supabase
- **Machine Learning:** Scikit-learn, TensorFlow, XGBoost, LSTM
- **Cloud & Deployment:** AWS, Vercel, Railway, Cloudinary, MongoDB Atlas
- **Tools:** Git, GitHub, VS Code, Postman, Maven

CERTIFICATIONS & TRAINING

- Cloud Practitioner Essentials – AWS
- MongoDB Data Modeling Path
- GLO Leadership Training Program – Sysco LABS
- Cambridge English Entry Level Certificate – Cambridge Assessment English
